| 1. Title of the certificate (LT) ¹ |
| Profesinio mokymo diplomas. Geležinkelio automatikos ir elektros tiekimo sistemų įrenginių elektromonterio modulinė profesinio mokymo programa (valstybinis kodas T43104107) |
| ¹ in original language |

| |
|--|
| 2. Translated title of the certificate (EN) ¹ |
| Qualified worker's Diploma. Electrician of railway automation and power supply system's equipment modular vocational training programme (state code T43104107) |
| ¹ If applicable. This translation has no legal status. |

| |
|---|
| 3. Profile of skills and competences |
| <p>Competences of qualification:</p> <ol style="list-style-type: none"> 1. Reading schematic diagrams of railway automation systems. 2. Applying schematic diagrams of railway automation systems during equipment maintenance and repair. 3. Applying normative documentation regulating railway automation systems maintenance and repair. 4. Performing maintenance and repair of railway interlocking operation and control equipment. 5. Performing maintenance and repair of hump yard microprocessor-based interlocking equipment. 6. Performing maintenance and repair of microprocessor-based interlocking equipment. 7. Performing maintenance and repair of semi-automatic route locking, automatic route locking and automatic route locking with audio frequencies track circuits equipment. 8. Performing maintenance and repair of automatic locomotive signalling track equipment. 9. Performing maintenance and repair of automatic level crossing signalling and microprocessor-based interlocking level crossing signalling equipment. 10. Applying normative documentation regulating power supply equipment maintenance and repair. 11. Performing maintenance and repair of uninterruptible power supply equipment. 12. Performing repairs on electric machines and devices. 13. Performing maintenance of railway electrification and electric traction systems. 14. Performing repairs on railway contact network. |

| |
|---|
| 4. Range of occupations accessible to the holder of the certificate ¹ |
| The main subject of activities of the Electrician of railway automation and power supply system's equipment: maintenance of equipment (traffic lights, crossing signalling equipment, transformers, microprocessors, rectifier systems, signalling and communication equipment, traffic safety equipment, fire safety equipment, switch blades) relevant to power supply. |
| ¹ If applicable |
