

## 1. Title of the certificate (LT)<sup>1</sup>

Profesinio mokymo diplomas. Orlaivių mechaniko modulinė profesinio mokymo programa (valstybinis kodas T43104108)

## <sup>1</sup>in original language

## 2. Translated title of the certificate (EN)<sup>1</sup>

Qualified worker's Diploma. Aircraft mechanic modular vocational training programme (state code T43104108)

<sup>1</sup>If applicable. This translation has no legal status.

	<ol><li>Profile of skills and competences</li></ol>
Competences of qualification:	·
I. Perform arithmetic actions.	
2. Perform algebraic actions.	
3. Apply geometric knowledge.	
<ol> <li>Describe the materials.</li> </ol>	
5. Describe the main statistical laws.	
6. Describe the main laws of kinetics	
7. Describe the basic concepts of dy	
3. Apply the main laws of fluid dynar	
<ol> <li>Apply main temperature scales an</li> <li>Describe the theory of electrons</li> </ol>	neat.
<ol> <li>Describe the theory of electrons.</li> <li>Describe static electricity and control</li> </ol>	ductivity
12. Describe the terminology of elect	•
13. Describe the generation of electric	
4. Describe the direct current source	
15. Describe the theory of alternating	
6. Describe the systems of electron	
17. Describe the basic terms of com	
8. Describe devices that are sensiti	e to electrostatic discharge.
<ol> <li>Describe aerial substances conta</li> </ol>	ning iron.
20. Describe aerial substances that o	o not contain iron.
•	Ilic materials (except wood and fabric).
22. Describe wooden constructions.	
23. Describe aircraft fabric covering.	
24. Apply knowledge of corrosion.	
25. Measure the screw threads.	
26. Use bolts, studs and screws.	
27. Use locking devices. 28. Describe aerial rivets.	
29. Use pipes and fittings.	
30. Describe bearings.	
31. Describe gears.	
32. Describe control lines.	
33. Describe electric wires and connection	ctions.
34. Take precautionary measures.	
35. Work safely at workshops.	
36. Use tools.	
<ol><li>Read engineering drawings, diag</li></ol>	ams and standards.
<ol><li>B8. Describe joints and gaps.</li></ol>	
<b>39. Describe electric wiring system.</b>	
10. Installation of rivets.	
11. Install pipes and hoses.	
12. Check springs.	
13. Clean bearings. 14. Check gears.	
14. Check gears. 15. Check control lines.	
46. Carry out maintenance and stora	e of aircraft
	tling, inspection, repair and installation.
18. Carry out an inspection after an u	
19. Describe maintenance procedure	
50. Describe atmospheric physics.	
51. Describe laws of aerodynamics.	
52. Know flight theory.	
53. Describe flight stability and dyna	nics.
54. Describe human factors.	
55. Describe human possibilities and	
56. Apply the basics of social psycho	
57. Describe factors affecting human	possibilities.

# **EUROPASS CERTIFICATE SUPPLEMENT (\*)**

- 58. Describe the physical environment.
- 59. Describe job assignment.
- 60. Communicate in teams and between teams.
- 61. Describe human mistakes.
- 62. Describe workplace hazard.
- 63. Describe regulatory framework.
- 64. Describe the functions of authorized personnel.
- 65. Describe the functions of approved maintenance organization.
- 66. Describe aircraft documentation.
- 67. Ensure airworthiness.
- 68. Describe the existing national and international requirements.
- 69. Describe airplane aerodynamics and steering systems.
- 70. Describe the flight at high speed.
- 71. Apply general concepts of airframe structures.
- 72. Describe airframe structures.
- 73. Describe air conditioning and cabin overpressure system.
- 74. Describe devices and systems of avionics.
- 75. Describe power plant.
- 76. Describe devices and equipment.
- 77. Know fire protection.
- 78. Describe steering systems.
- 79. Describe fuel systems.
- 80. Describe hydraulic systems.
- 81. Describe ice and rain protection.
- 82. Describe the chassis.
- 83. Describe lighting systems.
- 84. Describe oxygen systems.
- 85. Describe pneumatic/vacuum systems.
- 86. Describe water supply/waste systems.
- 87. Describe internal aircraft maintenance systems.
- 88. Describe the Integrated Modular Avionics.
- 89. Describe passengers cabin systems.
- 90. Describe information systems.
- 91. Know the basics of physics.
- 92. Maintain air intake diffusers.
- 93. Describe compressors.
- 94. Describe combustion chamber.
- 95. Maintain turbine.
- 96. Describe exhaust tube.
- 97. Describe lubricants and fuel.
- 98. Describe lubrication system.
- 99. Describe fuel systems.
- 100. Describe air systems.
- 101. Describe startup and ignition systems.
- 102. Describe engine display systems.
- 103. Describe turbo propellers.
- 104. Describe turbo-charged motors.
- 105. Describe plants' equipment.
- 106. Describe fire protection systems.
- 107. Know engine maintenance and ground handling
- 108. Know propeller basics.
- 109. Describe propeller construction.
- 110. Describe propeller shift mechanism.
- 111. Describe propeller protection against icing.
- 112. .Describe maintenance of propeller.
- 113. Describe propeller storage and preservation.

### 4. Range of occupations accessible to the holder of the certificate<sup>1</sup>

Aircraft mechanic activity object: carry out scheduled aircraft pre-flight inspection, eliminate defects and violations that could affect safe operation.

<sup>1</sup> If applicable

#### (\*) Explanatory note

This document is designed to provide additional information about the specified certificate and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers.
